

Appendix E
Immediate Research
Critical to the Design of
Chief Joseph Dam
Hatchery Program

Chief Joseph Hatchery Program Broodstock Testing Collection Plan

**Prepared
for**

Colville Tribes

**Submitted
by**

**Mobrand Biometrics, Inc.
Vashon Island, Washington**

April 2004

To facilitate downloading and viewing, Appendix E has been separated into smaller files that can be accessed through the **links** below:

Section 1: Study Objectives

Section 2: Study Area

Section 3: Methods

 3.1 Literature Review

 3.1.1 Stream Temperature and Flow Data

 3.1.2 Summer/Fall Chinook Salmon Run Timing and Abundance

 3.1.3 Permits

 3.2 Site Review and Selection

Section 4: Results

 4.1 Literature Review

 4.1.1 Okanagan Basin Description.

 4.1.2 Summer/Fall Chinook Salmon Geographic and Temporal Spawning Distribution.

 4.1.3 ESA-Listed Species

 4.1.4 Potential Selective Fishing Gear

 4.2 Site Review and Selection

 4.2.1 Wells Dam Pool (Lake Pateros) .

 4.2.3 Similkameen River

This file is **27.8 MB** and may take some time to download

 4.3 Study Design

 4.3.1 Permits and Coordination with Co-Managers

 4.3.2 Preliminary Data Collection

 4.3.3 Equipment...

 4.3.4 Fishing Gear Procedures

 4.3.5 Fish Handling

 4.3.6 Data Collection.

 4.3.7 Reporting.

 4.3.8 Study Costs

Section 5: Discussion

References

Appendix A- Broodstock Collection Cost Estimate

TABLE OF CONTENTS

List of Tables	ii
List of Figures	iii
Section 1: Study Objectives	1
Section 2: Study Area	2
Section 3: Methods	3
3.1 Literature Review	3
3.1.1 Stream Temperature and Flow Data	3
3.1.2 Summer/Fall Chinook Salmon Run Timing and Abundance	3
3.1.3 Permits	3
3.2 Site Review and Selection	3
Section 4: Results	5
4.1 Literature Review	5
4.1.1 Okanogan Basin Description	5
4.1.2 Summer/Fall Chinook Salmon Geographic and Temporal Spawning Distribution	9
4.1.3 ESA-Listed Species	10
4.1.4 Potential Selective Fishing Gear	10
4.2 Site Review and Selection	28
4.2.1 Wells Dam Pool (Lake Pateros)	28
4.2.3 Similkameen River	37
4.3 Study Design	40
4.3.1 Permits and Coordination with Co-Managers	40
4.3.2 Preliminary Data Collection	41
4.3.3 Equipment	42
4.3.4 Fishing Gear Procedures	42
4.3.5 Fish Handling	44
4.3.6 Data Collection	45
4.3.7 Reporting	46
4.3.8 Study Costs	46
Section 5: Discussion	47
